**MONEY, BONDS AND STOCKS.**

Small Business in New York, with a Market  
Showing an Advancing Tendency.

NEW YORK, July 3.—Money on call was easy  
at 1 1/4 per cent, the last loan being made at  
1, closing off at 1.

Prime mercantile paper, 3/16 per cent.  
Sterling exchange was dull but steady at  
\$4.62 for 60 days and \$4.84 for demand.

The total sales of stocks to-day were 35,806  
shares, including the following: Delaware,  
1,417; Missouri Pacific, 1,025; Northern Pacific  
preferred, 1,400; St. Paul, 5,000; Reading, 8,000;  
Texas Pacific, 1,300; Union Pacific, 2,125.

The attendance at the market was ex-  
tremely small, most of the members having left  
the city to remain over the national holiday, and  
the business done was in all probability the  
smallest in the history of the Exchange for one  
day. The importance of the transactions was  
on a scale conforming to the foregoing facts, and  
the fluctuations were confined to the narrowest  
limits ever seen, very few of the stocks  
trading in showing an extreme range  
of more than half of one per cent.

The only important movement of the day  
was in Rock Island, which, under some pressure  
from the traders, retired from 102 to 100 1/2.  
The general list, however, displayed a firm tone  
during the first hour of trading, and the advanc-  
ing prices were established, the "bulls" holding prices more  
firmly under the improved outlook of the iron  
trade, while the "bears" were disinclined to  
extend their lines of "shorts." The opening was  
steady, and some little animation was shown in  
the first hour, accompanied by a slight  
upward movement extending to 1 per  
cent, but after that time the trading  
became completely flat of the list, and beyond the  
decline in Rock Island, the market was entirely  
barren of feature or motion of any kind.

The close was steady at prices generally  
better than the opening figures. The busi-  
ness done amounted only to 35,806 shares—  
Rock Island lost 1 1/2, and Pacific Mail 1/2.

The railroad market was more animated  
than the share list, the sales of all issues being  
\$97,000, though the Texas Pacific issue was a  
decided feature, the first furnishing \$185,000  
and the second \$14,000. The tone of the deal-  
ings was firm to strong throughout the day, and  
most of the issues traded in are higher.

Government bonds were dull and steady.  
State bonds were dull and without change.

Closing quotations were:  
Four per cent. bonds, 127 1/2; Kansas & Texas, 13 1/2;  
Four per cent. bonds, 127 1/2; Lake Erie & West. 140;  
Four and a half per cent. bonds, 127 1/2; Lake Erie & West. 140;  
Four and a half per cent. bonds, 127 1/2; Lake Erie & West. 140;  
Four and a half per cent. bonds, 127 1/2; Lake Erie & West. 140;

line prices of yesterday. The market then be-  
came firm and advanced 1/2; was steady for a  
time, then became easier, and sold off 1/2, ruled  
steadily and closed 1/2 higher than yesterday.  
There was good buying on local account, and  
while offerings were rather limited, and this  
created reports that about 50,000 bushels of  
corn had been posted in New York as hot and  
out of condition. Oats to go to store sold bet-  
ter, especially No. 2, on account of this month's  
delivery being improved in the speculative  
market. Daily delivery advanced 1/2 to 3/4 also  
yesterday's closing and closed 1/2 better.  
This improvement was the outgrowth of an improved  
demand from "shorts." All other futures were  
weaker. There was a good trade in wheat at  
10 1/2, but longer delivery ruled quiet.  
The provision market was weaker and prices  
ranged lower. Stocks showed a trifle better  
than expected, especially lead, which was 50,  
007 shares. The aggregate stock of all kinds of  
hog products was 144,000 pounds, an in-  
crease over June 1 of 11,000,000 pounds, but a  
decrease of 35,000,000 pounds from July 1 last.  
A fair business was transacted, "long"  
stuff came out more freely than buyers were  
able to absorb, and a decline of 20 1/2 was re-  
corded on pork, 10 1/2 on lard, and 10 1/2 on  
short ribs. The daily delivery of the depression, as  
"shorts" began to cover, but last sales were at  
5 1/2 decline on the speculative list. The leading  
futures ranged as follows:
